FINANCIAL NEWS

Price Movements on Stock Ex-

change Are Unimportant

and Tone Is Steady.

WEAKNESS IS IN LIRE

Bank Statement Shows Gain

in Surplus Reserve of

\$30,033,870.

The usual Saturday dulness prevailed

in yesterday's narrow and professional

market in the New York Stock Ex-

change. While the active stocks showed fractional losses for the day at the

close, reflecting the sentimental nature

close, reflecting the sentimental nature of Friday's rising market, the price movements were unimportant and the tone was steady throughout the abbreviated session. Readjustment of accounts featured the otherwise singuish trading. Were the market influenced to any large extent by reverses on the western front, the early despatches admitting the capture of Kemmel Hill by the enemy and other German advances would have produced heaviness, not to say large declines. As a matter of fact the opening prices were only fractionally lower than the previous closing and subsequent selling produced declines of only 1½ points at the extreme low of the day. Later war reports were tetter. The Allies appeared to have checked the foe south of Ypres and the French recaptured Locre village. Thereupon the list recovered and the level at the close was almost identical to the opening figures.

Reports were circulated on the floor at the start of the recovery that Direc-

Reports were circulated on the floor at the start of the recovery that Director-General McAdoo had instructed his subordinates not only to treat the railroads fairly in the matter of the con-

roads fairly in the matter of the contract but to advance to the railroads between 15 per cent, and 20 per cent, of the year's rental. It was said that such action would aid the Liberty bond campaign in its final week of effort, and that an announcement would be made on or before Monday. While the reports were unconfirmed before the close of the market, they stimulated the recovery in rails, Reading rising more than a point from its low of 79%. There were no other developments of importance outside of the trade reviews abowing remarkable business expansion thus far in April. Liberty bonds were firm, and it is interesting to note the gradual rise of the 3% per cent, bonds in the direction of par. They sold as high as 99.30 yesterday. There are indications that the Liberty Loan campaign will go "over

the top" during the coming week and that the oversubscription will be satisfactory.

market was the continued weakness in lire, which sold as low as \$.97% lire to

lire, which sold as low as \$.97 \( \frac{1}{2} \) lire to the dollar for checks. Sterling and francs were off a fraction in a day of quiet trading. The cotton market had another wide break in prices, but this had no effect on stock trading.

The bank statement showed a gain in surplus reserve of \$30.033,270, carrying that item to \$71,705.990, the best surplus since February 9, when \$89,205.280 was reported. Total cash reserve increased

ing off in deposits accounted for the gain

n surplus.

United States deposits with Clearing House banks increased \$55.59,000 to \$358,469,000. On these deposits no reserve is figured. Loans continue to expand, the increase for the week being tree or one \$100.000 for the week being tree or one \$100.0000 for the week being tree or one \$100.00000 for the week being tree or one \$100.00000 for

Wall Street's second half holiday market yesterday was the reverse of Friday's, for stocks opened at declines, although some issues recovered part of their losses. The uncomfortable war news was the determining factor in trad-ing, and more eyes were on the news tickers than stock tickers. There was not sufficient fresh buying to offset the selling by those who preferred cash to securities over Sunday, and except in a few speciaties closing prices were some-what lower throughout the list.

83 59 374

Philadelphia Company Financing News that the Philadelphia Company Saturday. It is understood that the syndicate of bankers has agreed to render the company whatever financial support it requires. That a strong banking firm here which is a member of the syndicate has not previously been identified with the Philadelphia Company adds significance to the present undertaking. It is believed the arrangements provide for funds up to \$10,020,000, which should be ample for the company's needs. This promise of financial support will probably tend to remove whatever doubt there may have been about the company's dividend. The directors' meeting is scheduled for Monday.

GOSSIP OF WALL STREET.

Its New Extensions.

The necessity for financial first aid for the Philadelphia Company was recently explained by a Stock Exchange firm partner who has made a special study of the company's financial and industrial history as being a case of where the company has been called upon to do too much in the public interest of the com-munities it serves without being permunities it serves without being permitted to increase its charges for service. This man pointed out that "both its electric department and its natural gas department have been called upon for the development of business beyond anything ever known, so that they have been carmealled to record a natural leaf been compelled to provide new produc-tive facilities at the cost of several mil-ilons of dollars. This has resulted in thee restion of a small flotting debt which in ordinary times would cause no concern. At first the management had concern. At first the management had reason to expect that it would be aided in this current financing by the War Finance Corporation. The Philadelphia L. Company is not waiting. It has a negotiation under way, likely to be concluded very soon, to take care of its needs in a very simple way, while the stockholders will share in the burden by a moderate reduction of the dividend for a time."

Wall Street is never satisfied unless it is, has something to talk about which it be-lieves the rest of the country knows nothing of, and after secretly whispering all week that the Government and the railroads are widely split over the control contract form it abruptly turned

in the raw hides market which resulted quite unprofitably for the company.
That is the finished leather which was sold in the first three months of this year on sharply declining prices had been purchased in the raw last full at practically top prices. But as it takes from four to six months to put leather through a tannery the company was Associa full as caught between the company was Associated to the from four to six months to put leather through a tannery the company was Associa Ol. 20 caught between these two extreme swings in the hides market and the poor earnings resulted. Just now leather at Cost L. 50 prices are again on the upswing, and it. AG&WI pf. 61 hald Loc pf be is believed that the company took adearnings resulted. Just now leather prices are again on the upswing, and it is believed that the company took adwantage of the recent bottom prices, which should show up in the balance of 

the year's earnings.

Canadian Exchange.

Canada's abnormal exchange situation in the United States is causing no little concern to Dominion bankers, according to representatives in this city of the Canadian institutions, for at the present premium of 2 per cent. Montreal merchants with payments to make in Butterick. 94 15 Butterick. 95 15 Butterick. 95 15 Butterick. 96 15 Butterick. 97 15 Butt merchants with payments to make in New York must pay a premium of \$20 a thousand to obtain New York funds. This condition has obtained for some months past, but the present 2 per cent, premium is the record high rate, and it is believed that if the American Government cannot see its way clear to granting Canada a credit the Dominion will have to ship gold into this country to rectify the uneven trade balance. A few weeks ago Sir Robert Borden, the Canadian Premier, and leading kankers visited Watshington in the hope of making some acrangement with Treasury officials that would ease the situation. But nothing came of it. Since then the exchange situation has grown steadily an Power & Light 4 7 as 1 and 1 a

granting Canada a credit the Daminion will have to ship gold into this country to restify the uneven trade balance. A few weeks ago Sir Robert Borden, the Canadian Premier, and leading kanhers visited Washington in the hope of making washington in the sound ease the situation. But nothing came of it. Since then the exchange situation has grown steadily an Power & Light. 40 to the capital to renew his efforts for a settlement.

Grain Shipments Soon.

The alternative of an American credit to Canada is a shipment of gold from that country to this, and from local Canadian bank agencies it is learned that the autherities are willing to do this if they can be assured that the gold will be returned within a definite period. It was thought that \$10,000,000 would cover the situation, and if the Canadian financial equoys en route to the American explicit for the situation, and if the Canadian financial equoys en route to the American explicit for the situation, and if the Canadian financial equoys en route to the American explicit for the situation of the world with gold and needs all it has to cover the situation, but if gold was sont across the border now it could be returned next month, when the Canadian grain exports will begin to come to this now the substantial volume. This would tend to correct the exchange rates and so any arrangement made now will be necessary for only a short time.

No Wide Swings Expected.

That the insiders in Bethlehem Steel B.do not look for any wide swings either way is evidenced by their offers of puts and collected for the battle in France remains in doubt the better element in Wall Street feels that any service of the battle in France remains in doubt the better element in Wall Street feels that any service of the battle in France remains in doubt the better element in Wall Street feels that any service of the battle in France remains in doubt the better el
